

Concrete Hopper

Concrete Hopper - This attachment is a self-dumping hopper that automatically sets off to dump when bumper release contacts the side of a dumpster. When dumping is done, the hopper goes back to an upright and locked position. This particular piece of equipment also comes with a cable that enables operation from the seat of the lift truck in order to have the choice of manually dumping the hopper. There is a locking chain provided to be able to secure the hopper to the fork truck. This particular product is constructed with consistent and reliable robotic welds for utmost strength. The forklift dumping hopper also has a blue powder coat finish in order to maintain durability.
